Heilbronn Slush'D 2022

Dear investor,

We are thrilled to announce that Europe's leading startup festival "Slush" is coming to Heilbronn this September and it's called Heilbronn Slush'D.

At Heilbronn Slush'D we are aiming to gather together the who's who of our startup ecosystems - founders and decision makers, future founders, investors, and innovative companies. The ONE unique event will provide you with twelve hours of real networking, entertainment and inspiration followed by an after party.

We are very happy to invite you to join us on September 22, 2022.

As this event is focused on linking up investors and startups, we are offering you a special program to:

- watch startups pitch on stage
- get full access to all sessions and side events
- meet startups in the startup exhibition area
- have access to the Venture Lounge
- network with the other investors, potential LPs and corporations
- attend the big Heilbronn Slush'D "After-Party"

We have specific investor tickets. By using the link below you will receive a discount of 30% on your ticket. Just keep in mind: Tickets can not simply be just bought - instead each attendee must apply for a ticket. This selection process helps make Heilbronn Slush'D a unique networking and deal making platform.

So apply [HERE](#) and join this ONE unique day/night event.

Wanna know more? The Heilbronn Slush'D story....

The SLUSH in Helsinki started as a student run startup event to help address the challenges of the local entrepreneurial ecosystem and was singularly focused on startups and investors. At present day the event has now over 20,000 attendees and has become one of the most well-known startup events in Europe.

For the first time Campus Founders is bringing Slush to Germany under the Heilbronn Slush'D banner.

Slush and Campus Founders' (CF) share a similar ethos and mission: to inspire and empower B2B tech founders to create startups that will shape, build and change the future. CF's mission is to bring startups and investors together, to foster relationships and collaborations but most of all to combine community forces, ideas and dreams whilst empowering them to the next level.

ONE day of opportunity to find, meet and inspire the next generation of startups. ONE night to attend a festival that will connect ambitious founders and innovators together with real investors and key decision makers, whilst hearing from highly experienced industry speakers and participating in educational workshops.

This is a unique opportunity for our region to continue to grow dynamically as a startup ecosystem and also gain national and international visibility.

If you have any questions feel free to contact Christine Rathgeber (christine@campusfounders.de).

We look forward to seeing you!

Your HEILBRONN SLUSH'D Team
